Subject: Thanks

On behalf of the CRRC/WPD/Cornish team, thanks for the opportunity to present and answer questions from the committee. The questions were all very good and hopefully helpful to you all.

While we didn't get an opportunity to formally summarize our presentation due to time, I can communicate that we wanted to leave the committee with the following thoughts:

- we have solid and deep planning and implementation experience that can serve you well.
- we are offering a top flight team specially assembled to meet the needs and requirements of your update project. You get four seasoned professionals plus additional staff who will work together to add value to the contract.
- we are local, which means we are able to be present frequently and maximize our community engagement and field work. We understand county and community issues, resources, and trends and bring that knowledge to bear on this project.
- Finally, we really want to do this project. It is why we came together and why we stretched to work within your budget and time frame.

Thanks again for the opportunity and we look forward to hearing from you. Please let me know if you need or would like any additional information.

Sincerely,

Gary Ferguson (on behalf of the team)
